# PROJECT IDEA

**Relevant Call : H2020-EIC-FTI-2018-2020 / FAST TRACK TO INNOVATION (FTI)**

**Project Title : AI SUPPORTED NO-CODE APPLICATION DESIGN & MARKETING SYSTEM**

**Objectives;**

- **Make application design easier by finding and sharing existing template applications which can be used by other designers**
- **Determine all the options according to the needs automatically and quickly, without consuming a lot of time for the customer candidates, obtain a short list by narrowing among many alternatives and make the final decision.**
