3. [MakeItReal](#) - STEAM education through real product design: 3D Printing
4. [Construit!](#) - Project on Empirical Modelling for Education
5. [IRNet](#) - International Research Network for Intercultural Competences

# Shift from Technical-, via Communicative- to Conceptual Skills

Conceptual skills allow employees to think in terms of

- Transformations rather than fixed states and procedures
- One's willingness to change oneself due to new circumstances
- Being sensitive to analogies and metaphores
