

Building sustainable food innovation hubs through a strategic ecosystem well-being approach

Introducing ACEEU and the project

Adisa Ejubovic

Executive Director, ACEEU

Project Proposal

Goal: Developing two leading European hubs / ecosystems for sustainable food innovation

Innovative element: Develop and implement a strategic approach that focuses on monitoring and advancing the well-being of each stakeholder, and the hub/ecosystem in general

Implementation focus: The hubs will centre around stakeholder competence development (EntreComp, GreenComp, ResearchComp)

We look for: academic partners in food, food companies, food-related associations etc.

WHO IS ACEEU?

Accreditation Council for Entrepreneurial and Engaged Universities

Accreditation Unit

EU Projects Unit

Today's focus

Our **passion** is creating
impact from science

We believe in **entrepreneurship and engagement** as key drivers in connecting excellence in science with societal impact

ACEEU EU Project Unit

3

Years old
