Why are C/D&E&T so important?

Heightened importance & emphasis from the commission

- **H2020 > Horizon Europe** in regard to C/D&E&T
- **Legal requirement:** Horizon Europe Regulation, Article 39

It is the **make or break** section of your proposal:

- Facilitates the project's **pathway to impact**
- Advances **knowledge** production & circulation
- Creates a viable pathway to **reach expected outcomes**
- Outlines the strategy for **management of IP**
- Underlines the **maturity** of a proposal

It is what EU's expert evaluators look for ([link](#))

Best Practices of ONCOVALUE

- **Dedicated C/D&E&T work package(s)**
 - Leadership with one partner (not coordinator)
- **Create a credible scale & significance for contributions of the project**
 - Set realistic tasks, timeframe and fitting milestones
- **Essential WP-tasks:**
 - Co-creation of C/D&E&T plans
 - Stakeholder scoping & mapping
 - Develop a consortium Knowledge Hub
 - Workshops & Networking activities
 - Sustainable business model
- **Ideal WP for SME cooperation > strengthens proposal**
 - Happy to share more examples face to face
