

Repurposing bio-agents for the benefit of humankind

Cluster 1_Health

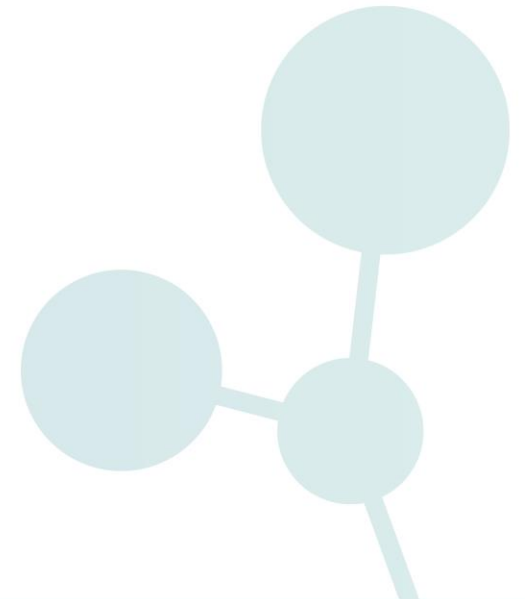

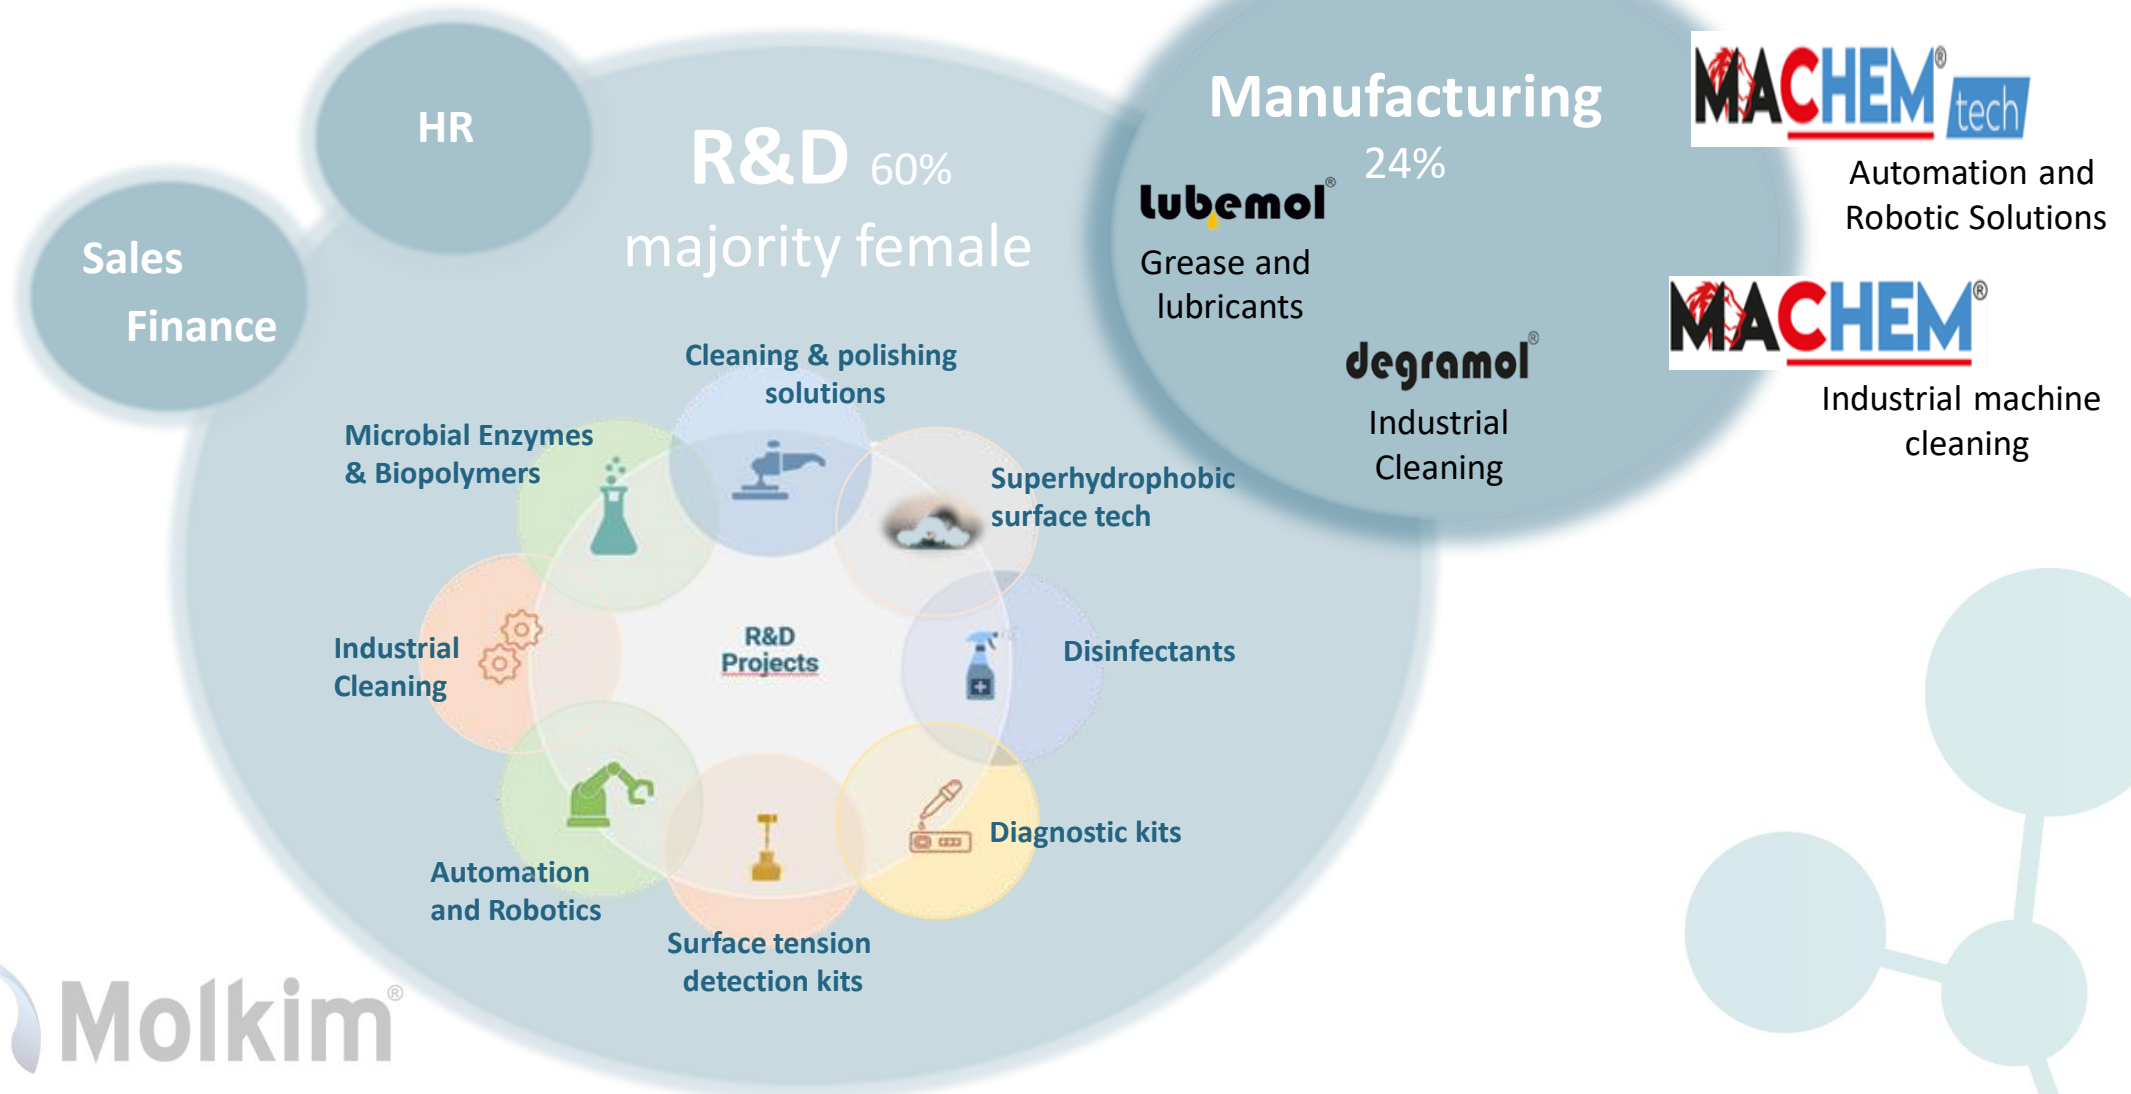

Hüseyin EVLAT

Head of Biotechnology Department

Successful R & I in Europe 2024: 11th European Networking Event
Düsseldorf, 15-16.Feb.2024

**We Think.
We Believe.
We Succeed.**

We are an innovation-driven company

Our State of Art Laboratories and Equipments

CHEMISTRY AND TRIBOLOGY
LABORATORY

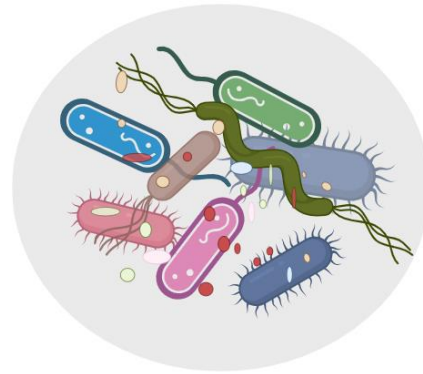

MACHINE MANUFACTURING

BIOTECHNOLOGY LABORATORY

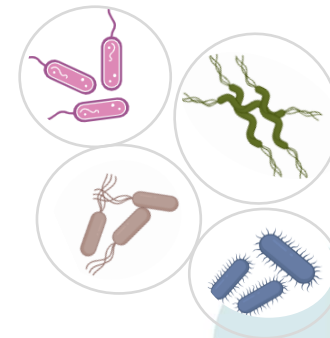

Mission: Repurposing bio-agents for the benefit of humankind

Sample collection/growth

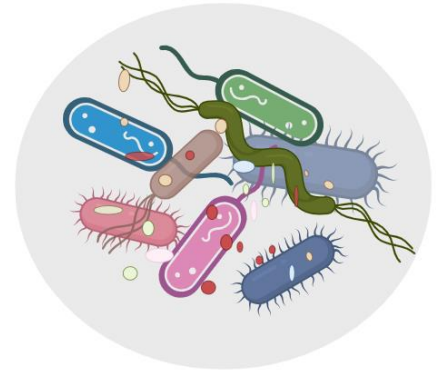

Isolation/purification
of byproducts
secondary metabolites

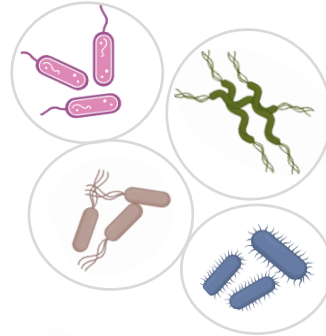

Identification
of microorganisms

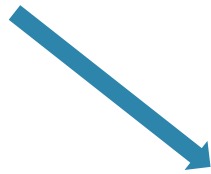

What we can bring to the table ...

Sample collection/growth

Identification & characterization
of microorganisms

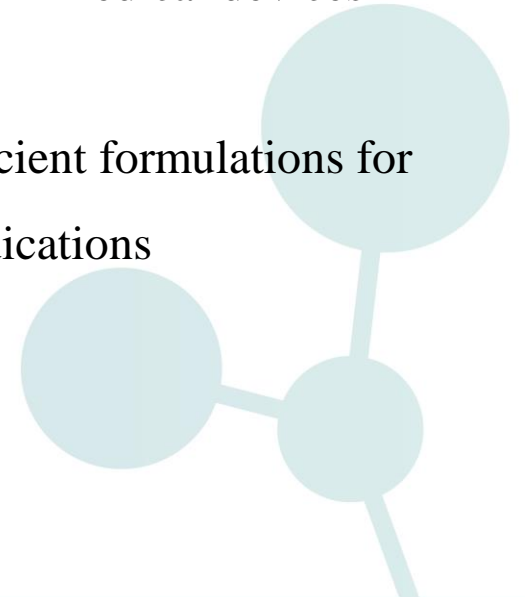

(Large scale) Isolation/purification
of byproducts, secondary
metabolites

Efficacy determination

Solutions for;

- Antimicrobial resistance
- Strategies to prevent microbial growth in medical devices
- Efficient formulations for medications

Do you think we can work together??

Let's discuss some more (!)

Hüseyin EVLAT
