

## Collaboration opportunities with EATRIS

16-02-2024

**Sara Zullino, PhD**

Scientific & SME Outreach Manager

[sarazullino@eatris.eu](mailto:sarazullino@eatris.eu)

**Successful R&I in Europe 2024, 11th European Networking Event**

Düsseldorf

# Who we are

Facilities, resources and services to support cutting edge research

## EATRIS countries

Bulgaria, Croatia, Czech Republic, Finland, France, Italy, Latvia, Luxembourg, Netherlands, Norway, Portugal, Slovenia, Spain, Sweden

**150**  
Research Institutes

## 5 Scientific Platforms

- ATMPs
- Biomarker
- Imaging & Tracing
- Small Molecules
- Vaccine, inflammation and immune monitoring

## Legal status

Non-profit, ERIC legal status

Examples of key actions

To accelerate the translation of research discoveries into patient benefit.

We **support, using our capacities and expertise** academia, industry, patients and policy makers.

# What do we do

---

1

**User access research and expert services**

---

2

**Develop new research tools**

---

3

**Provide education and training**

---

4

**Improve conditions for translation**

# Support for funding applications (1)

EATRIS offers a range of services to help researchers strengthen the translational potential of their research proposals:

1

**FORMING A  
CONSORTIUM**

2

**JOINING AS A  
PARTNER**

3

**LEADING FLAGSHIP  
PROJECTS**

# Support for funding applications (2)

EATRIS can participate in research funding proposals as a full partner providing various centralised services:

**2A**

**INNOVATION  
MANAGEMENT  
& INDUSTRY  
PARTNERING**

**2B**

**REGULATORY  
SUPPORT**

**2C**

**TRANSLATIONAL  
OPTIMISATION**

**2D**

**TRAINING  
WORKSHOPS**

# Offering services to Industry

---

Access to academic  
**expertise**  
**technology**  
**facilities**

Validated **tools**  
that **improve** your  
**development**  
programme

Facilitate your  
**public-private**  
collaborations

# Cancer Image Europe

Flagship project of the European Cancer Imaging Initiative

## Vision

Enhance cancer **diagnosis** and **treatment** through AI tools

## Mission

- **Deploy a hybrid federated infrastructure** to power up AI & imaging to beat cancer
- Provide a research platform for the **development & benchmarking of AI tools** toward Precision Medicine
- **Address the fragmentation** of the existing cancer image repositories by building a distributed **Atlas of Cancer Images** (*>60m anonymised cancer images*) accessible to clinicians, researchers and innovators
- Create a federated data warehouse approach for deploying observational studies

[cancerimage.eu](https://cancerimage.eu)

**EUCAIM will onboard new partners (data providers and AI developers) through open calls → April/May 2024**

The REMEDI4ALL project has received funding from the European Union's Horizon Europe Research & Innovation programme under grant agreement No 101057442.

## Building a complete and accessible DR platform from preclinical development to approval and clinical practice
