# EdTech Talents: Cross-border & cross-sector mobility methodologies

## Researchers' professional development

- ❑ Co-design of a knowledge service in secondment
- ❑ Prototype development continues at home
- ❑ Sharing new knowledge within EdTech Ecosystem

## Researchers' mentoring by EdTech companies

- ❑ Validation – establishing a solid foundation
- ❑ Collaboration – co-creating a value
- ❑ Validation – recognizing and documenting the growth

**Objective:** Enhance collaboration between academia and the Educational Technology Sector!

# EdTech Talents: Types of Knowledge Services

- ❑ **Supporting institutional change** – ResearchBridge enhances knowledge transfer by helping researchers create industry-aligned profiles, ProjectAcademy is an innovative platform that equips university researchers and companies with practical skills to secure Horizon Europe and local funding
- ❑ **Transferring knowledge via digital games** – Find out what happened, Decision maker and MitiGate, Technology-Enabled Project Management Game
- ❑ **Digital applications and services** – Usability Platform Test, Blockchain based application for validating university degrees, The Dangerous Good Course
- ❑ **Consultancy services** – Team building and personal soft-skill development program to overcome Z generation vs X,Y generation conflicts, Methodology development for green skills/sustainability diagnostics, Map of researchers' services, DigiEduEcoGuide

As a result, researchers become **more entrepreneurial & adaptable**, driving **institutional change** and **digital education impact**.
