Circular Industrialisation of the Built Environment Value Chain

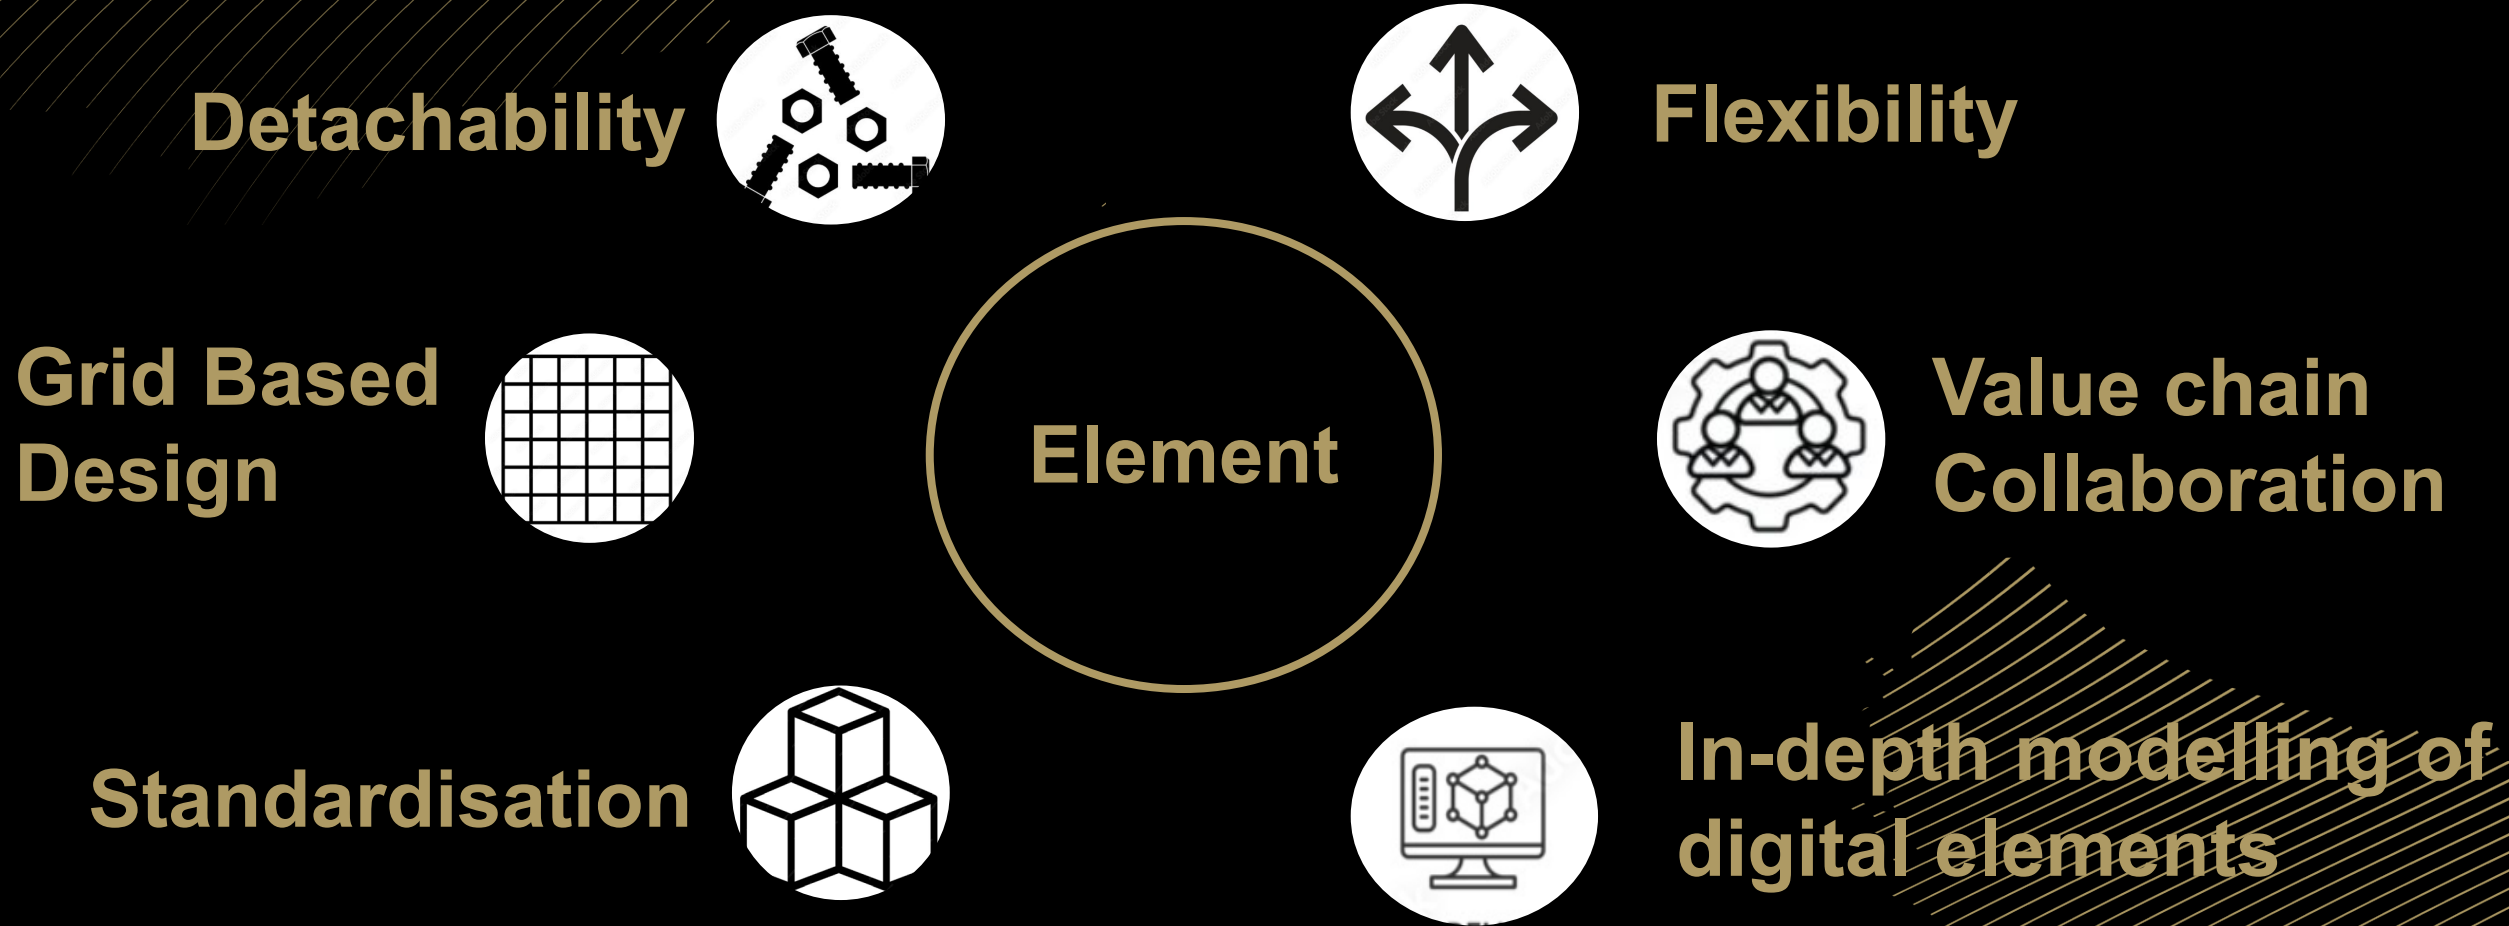

PXL Construction & Industry Center of Expertise

How can we make a circular built environment economically viable?

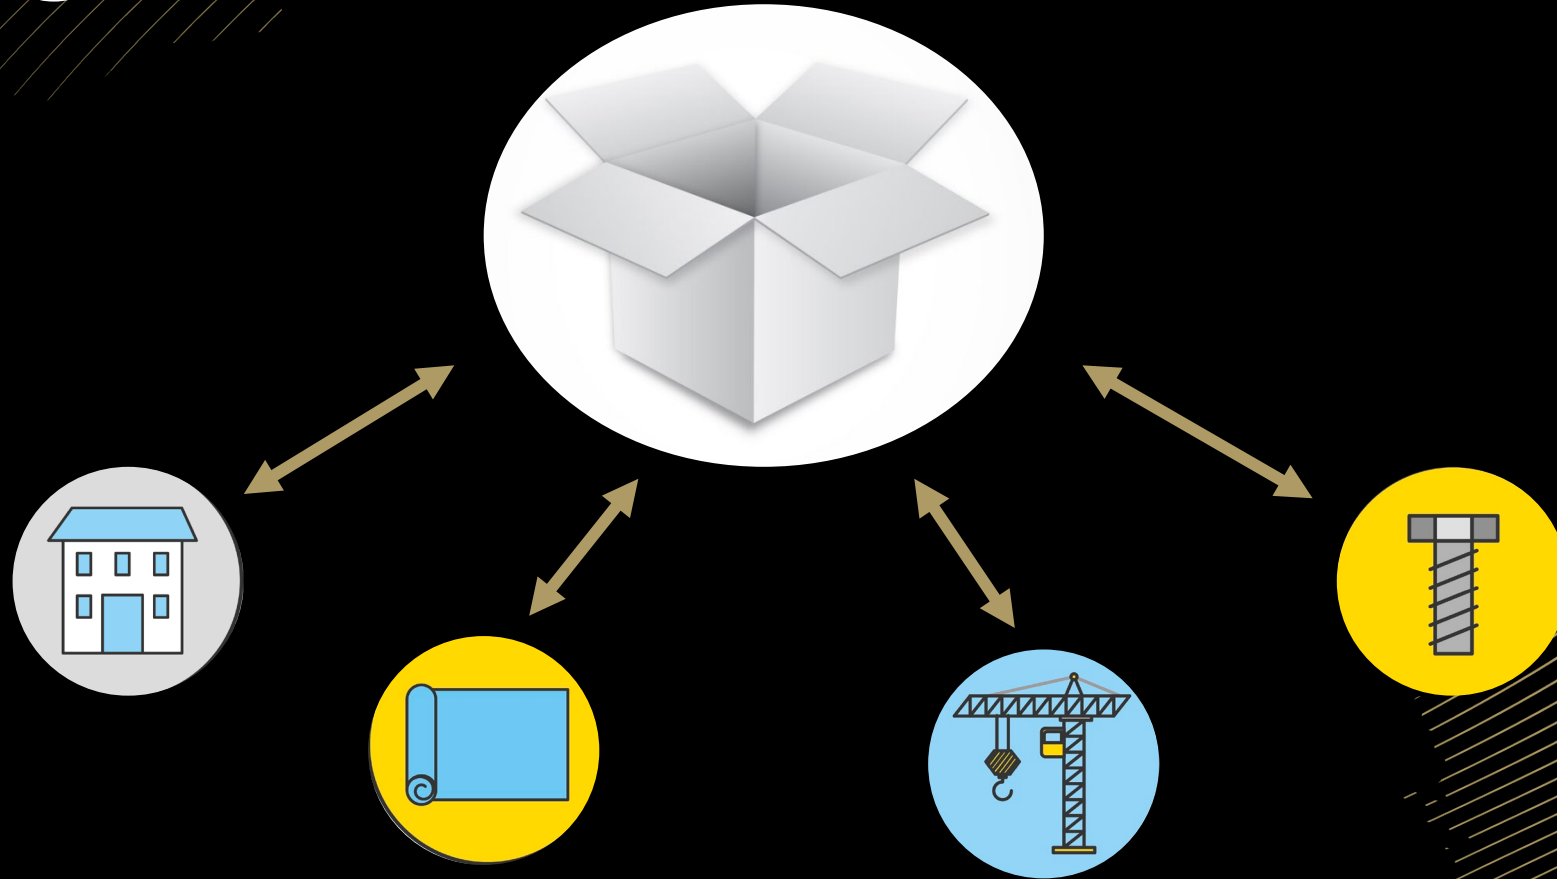

A systemic approach across the built environment value chain

6 integrated principles of Industrialised Circularity

Working with a box of circular elements

Current state of the research

Real-life testing of the basics with 50+ companies from across the value chain

Call for partners

Reuse of materials
BIM & Digitalisation
Design & Architecture
Circularity

Or surprise me!

(you have a great idea and want to have it implemented in the built environment value chain)

Reach out!
