

***Work with half of Europe\* with the partners  
from the Innovative Public Procurement  
Project: Procure4Health***

**[www.procure4health.eu](http://www.procure4health.eu)**

***\* (33 partners from 15 countries)***

**Marcin Kautsch**

Project coordinator, Poland

Procure4Health Project,

Düsseldorf, 2025.03.06-07

- Topics you would like to explore in future Horizon Europe projects or results from an EU-funded project

**ANY TOPICS – as long as they are healthcare related.**

Healthcare units are like cities...  
They need not only items like drugs, or Med-Tech., but:

- energy,
- water,
- food,
- safety,
- IT,
- sanitation,
- cleaning,
- construction materials,

...

# Short description of the type and role of partner(s) you are seeking

The answer to this is: “it depends”. We usually miss:

- **Procurers** (organizations that can declare demand for the solution).
- Test beds (usually the same as procurers).
- **Consortium leaders** (we can **provide** all kind of **needed support**, though we sometimes miss a leading organization).
- **Organizations that deliver and keep promises.**
- Expert organizations (say, we want to do a project IT-related – we need IT company, etc.)

The reason good men are hard to find is because they're usually busy working.
