

Research

Monkey.

A unified platform for precision **discovery**, streamlined **management**,
and **verifiable** academic integrity.

The Research Friction Crisis

Fragmented Management

Knowledge is scattered across **Google Drive**, **Emails**, **Overleaf**, and isolated **ChatGPT** project silos.

Manual Discovery

Navigating multiple portals, **Notion** notes, and lecture materials while battling **paywalls** and information silos.

Verification Gap

Current research integrity is often based on the **passive assumption** that peer review alone guarantees total accuracy.

ResearchMonki.Com

Pool Research Portals

- Arxiv
- OpenAlex
- Semantic Scholar
- Ask User defined question and prepare summary

Verify Citations

- Search portals
- Search the internet
- Collect the evidence and analiz it.
- Human decide at the end.

Manage the Knowledge

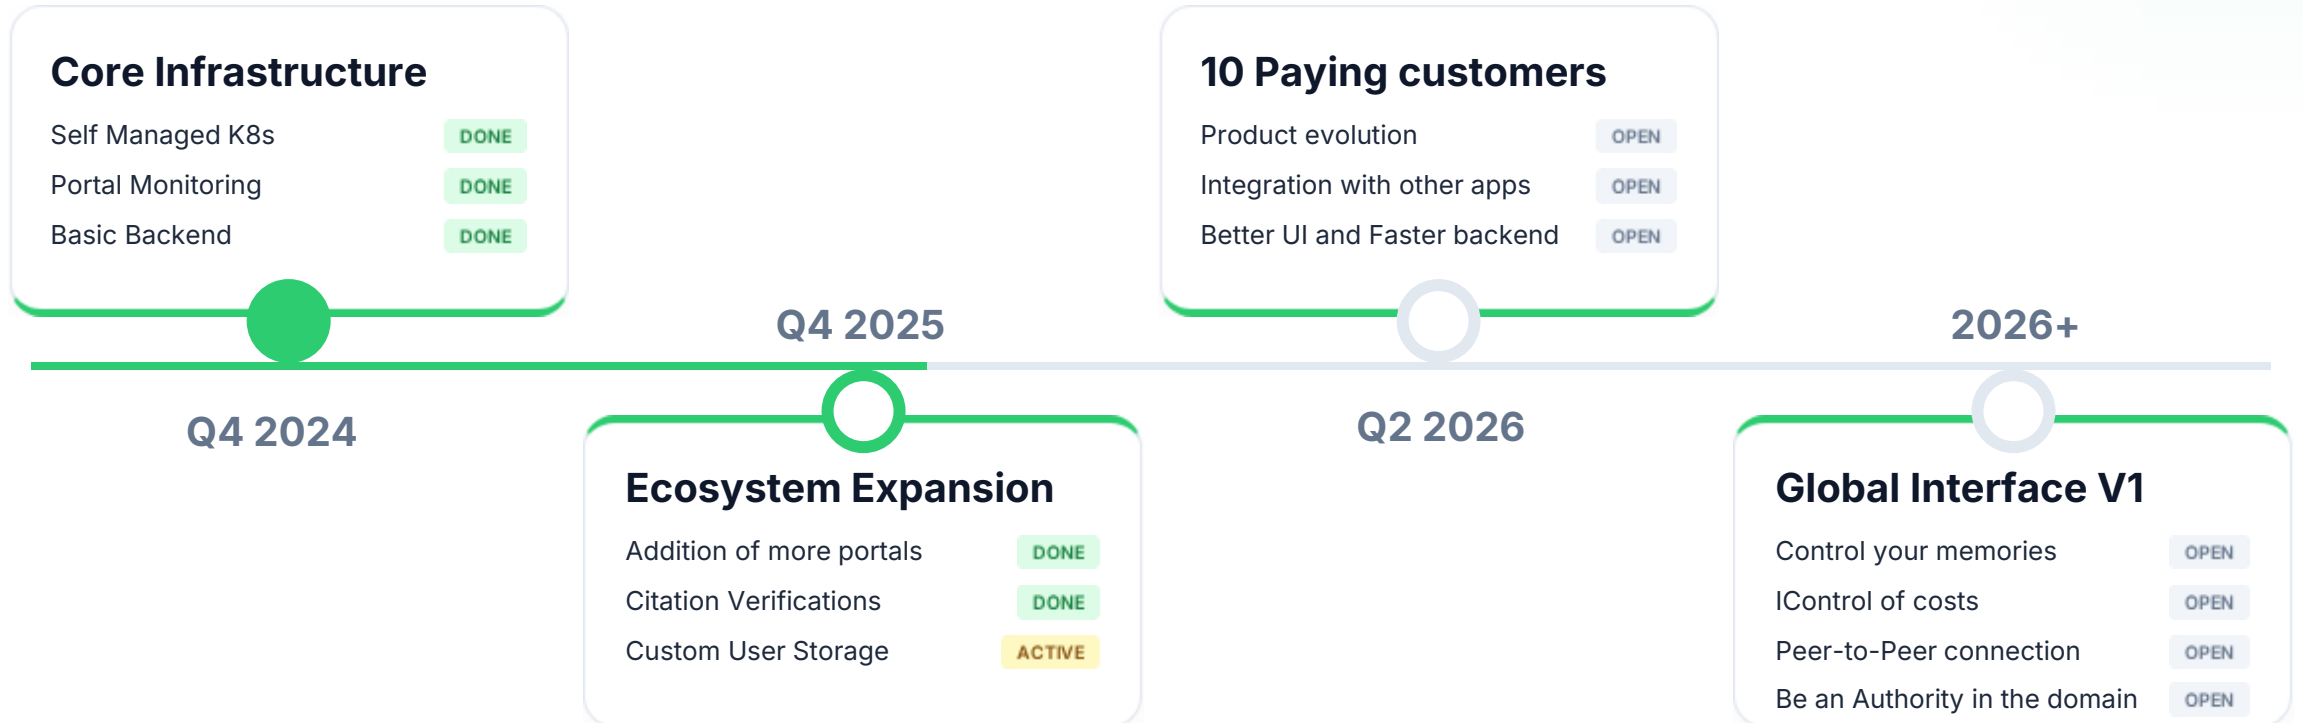

- Your notes, papers, incomplete, unpublished reports
- Vector indexed and searchable.

Global Knowledge Interface

Global Learners
& Peers

Trajectory: Development Status

Seeking Strategic Partners

Institutions

Academic bodies seeking to enhance research output and integrity.

News Agencies

Media partners focused on verifiable science communication.

Investors

Angel investors and co-founders passionate about EdTech & AI.

"Making Research Monkey a tool which is as common as google"

Research Monkey Team

Real Life Example

The screenshot shows a web browser address bar with the URL `nature.com/articles/d41586-025-04064-7`. Below the address bar is the Nature logo and a navigation menu with links for "Explore content", "About the journal", "Publish with us", and "Subscribe". The breadcrumb trail reads "nature > career column > article". The article is dated "22 January 2026" and is part of the "CAREER COLUMN". The main title is "When two years of academic work vanished with a single click". The sub-headline states: "After turning off ChatGPT's 'data consent' option, Marcel Bucher lost the work behind grant applications, teaching materials and publication drafts. Here's what happened next." The author is identified as "Marcel Bucher". A row of social media sharing icons (Email, Twitter, Facebook, LinkedIn, WhatsApp, and X) is visible below the author's name. At the bottom of the screenshot, the full URL `https://www.nature.com/articles/d41586-025-04064-7` is displayed.
