

# MESAP Cluster

INNOVATION CATALYZER

**Mangiantini Marco**

Technical Advisor

# CHOOSING THE RIGHT ALLY

# Our interest: Horizon Europe Calls

- **HORIZON-CL4-2026-01-MAT-PROD-41: Enhancing industry-academia knowledge exchange in Social Sciences and Humanities (SSH) (CSA)** (deadline 21/04/2026)

*This action aims to leverage the strengths of social sciences, humanities and arts (SSH) to address companies' specific needs, fostering a dynamic and productive industry- academia co-creation for knowledge valorisation*

- **HORIZON-CL4-2026-01-MAT-PROD-45: Pilot access schemes to Technology Infrastructures for European startups, scaleups and innovative SMEs (CSA)** (deadline 21/04/2026)

*The action will develop and test pilot multi-site access schemes for startups, scaleups and other innovative SMEs, involving a critical mass of Technology Infrastructures operators and users in priority areas*

# Who are we seeking, and our role

- We are looking for a **Coordinator** or consortia in the phase of setting up a proposal
- **Possible role covered by MESAP**
  - **As Cluster**, MESAP can count on a large pool of companies, most of which are devoted to innovation, that can be activated in order to be playing a relevant part in the project as users and beneficiaries of the provided services.  
**Moreover, since MESAP is part of the cluster system on regional level, we could also enlarge the basin of potential final users to be involved in the development phases of the projects**

# Who are we seeking, and our role

- **MESAP is also carrying out, in several EC projects, the role of Communication Work Package leader.**

**This is due to the fact that, beyond the experience and competence of the Communication team, we have strong European connections with other Clusters or BSOs (Business Support Organisations) that allow us to be effective in vehiculating messages or collaboration activities.**

**Furthermore, since we are strictly connected to the Piemonte Regional Authority, we can count on collaborations also on a political and Institutional level, which are always necessary in such wide-ranging projects as the two we wish to participate in. Therefore, for the above motivations, we can candidate ourselves as Communication WP Leader.**

# Our Background

- **greenSME:** HORIZON-CL4-2021-RESILIENCE-01-29, 2022-2025. Support in strengthen manufacturing SMEs' capacity to adopt advanced technologies for sustainability – Cascading grants (Mesap WP Leader)
- **Mind4Machines:** H2020-INNOSUP-2020-01-two-stage, 2021-2024. Support the cross-sectoral support needed by manufacturing SMEs to adopt cross-cutting digital technologies – Cascading grants
- **DREAM:** SMP-COSME-2021-CLUSTER, 2022-2024. Building resilience and accelerate transition to green and digital economy – Cascading grants (Communication WP Leader)
- **CURIOST:** Interreg CENTRAL EUROPE. Circular design and development of Sustainable products in 4 key sectors in Central Europe (Communication WP Leader)
- **EXPAND – EDIH.** Extended Piedmont and Aosta valley Network for Digitalisation (Communication WP Leader)
- **Participation in several European Networks:** ECCP (European Cluster Collaboration Platform), Silicon Eurocluster, EFFRA (European Factories of the Future Research Association), EPOSS (European Association on Smart Systems Integration)
